Dental Card.
I wish I say a word to be Gentlemen and Ladies of Bangor and vicinity As parents you would do more for your children than for yourselves A gentleman in Bangor, who is fifty years old was in my office in April and said that he would give one hundred dollars if I would save one tooth in his mouth without extracting it But he was too late If a man will thus value one tooth what will he not do for his children
Now if you cannot save your own you can save the teeth of your children Almost every day some father or mother will come to the office with a request that I will have me extract some aching tooth I examine the mouth and find that the [illegible] tooth is not a temporary but a permanent one I generally surprised you are wrong, she has never had but one tooth there she will certainly have a permanent tooth when this one is out of the way!
A very large proportion of our patrons have never known or have forgotten, that in our first set we have but twenty teeth And that all teeth that grow back of the twenty are permanent ones thirty two in all I have ex racted within the past year, seven permanent teeth for one little girl whose not eleven years old Will you parents suffer your children to suffer for their life time by your neglect? If by neglect on my part the last permanent teeth, a good set or will tell you where to go for the best artificial ones Hundreds of people in Bangor and vicinity will endorse by their own experience all I have here said in this paper
DR J K LINCOLN Though we have not the pleasure of a personal acquaintance with the gentleman yet we have reason to believe that he is a most skillful practitioner of the dental art A case in point has made one old face in our house look a young again and has fitted by art a pair of jaws in mastication the food again which charm nature th ought to have of this privilege a little too soon We cannot speak the work and composition of the two full sets of teeth he has inserted cannot be excelled in our vicinity—Rural Intelligencer
My price now is $50 for a whole set of the best artificial teeth $5 5 for a half set

ADDRESS
TO THE
Nervous and Debilitated,
Whose sufferings have been protracted from hidden causes, and whose cases require prompt treatment to prevent present disease, If you are suffering, or have suffered from involuntary discharges what effect does it produce upon your general health Do you feel weak debilitated easily tired? Does a little exertion produce palpitation of the heart? Does your liver or urinary organs, or your kidneys frequently get out of order? Is your urine sometimes thick, cloudy or ropy, on settling? Or does a thick scum rise to the top? Or a sediment at the bottom after it has stood awhile? Do you have pains or sense of heart breathing or dyspepsia? Are you troubled with nervousness? Do you have spells of fainting or rushes of blood to the head Is your memory impaired? Is your mind constantly dwelling on this subject? Do you feel dull at times, moping tired of company of life? Do you wish to be left alone to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless is the picture of your eye as bright as? Is the blush on your cheek as bright? Do you enjoy yourself society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and lagging given to fits of melancholy? If so, do not lay it to your liver or dyspepsia Have you nervous nights Your back weak, your knees weak, is there but little appetite, and you attribute this to liver complaint or liver complaint?
Now, I ask, self abuse, venereal diseases badly cured sexual excesses are all capable of producing weakness of the generative organs The organs of generation when in perfect health, make the man Did you ever think that those bold defiant, energetic and successful business men are always those whose generative organs are in perfect health Did you never hear such men complain of being troubled by of nervousness of prostration of debility
How many men, from the effects of excesses have brought about that state of weakness in Sexual Organs that has reduced the general system so much as to render almost every other disease—idiocy, lunacy, paralysis, spinal affections and fits and all nervous diseases from all of disease which humanity is heir to and the real cause of the trouble scarcely ever suspected and have used remedies for all but right one
Diseases of these organs require the use of a Diuretic HELMBOLD'S FLUID EXTRACT BUCHU is the great Diuretic, and is a certain cure, for diseases of the Bladder, Kidneys, Gravel Dropsy, Organic Weakness, Female Complaints General Debility and all diseases of the Sexual Organs, whether existing in Male or Female, from whatever cause originating and no matter of how long standing

Through the agency of Messrs Hill & Howorth Washington D C, who allow no applicant to suffer in their hands, I have received a patent on a STAVE JOINTING MACHINE, which I think of great value, not on account of its greatness, but of its simplicity and goodness. I have one now in operation in Belfast which I shall be happy to show any who may be interested to see its working It is used the same as the old Jointers with the exception that I can change the bilge of the different width staves in exact proportion to their width, by a simultaneous movement of a guide track in combination with a moveable carriage, all adjusted at will, and can be operated with the same speed as the old machines
My present purpose is to sell no rights, but put my machines into the market at a price which will come within the means of the smallest operators and receive a royalty in proportion to the amount of business done I hope in the course of a few months to be able to supply a part of the calls which I may receive

FACTS FROM THE CENSUS RETURNS —The census for 1870, besides the distinctions between native and foreign born population, also gives the number of persons native born both of foreign parents, it will show the number of those having both parents foreign, those who have foreign-born father and native born mother, and those having a foreign born mother and native born father

These latter distinctions are not given by themselves, but are easily obtained each by a single subtraction A great many interesting facts will be shown Among other things it will appear inferentially how much foreign born men marry native women than native men marry foreign women The percentage of difference between those having a foreign father and those having a foreign mother is always small, the former being in excess in all the States and in all the Territories except Arizona, where the latter are 42 more in number, and Utah 1533 The total for all the States and Territories are as follows —

Total population	38,[illegible]	981
Native born	17,981	437
Foreign born	5 566	546
Having one or both parents foreign	10 950	091
Having to sign father and native mother	781	368
Having native father and foreign mother	370	782
Having both father and mother foreign	9 731	515

For the State of Massachusetts the numbers are as follows —

Total	1 457	351
Native born	1 104	85[illegible]
Foreign born	3 3	310
Having one or both parents foreign	626	211
Having foreign father and native mother	18	484
Having native father and foreign mother	16	3[illegible]
Having both parents foreign	5	9[illegible]2

In Massachusetts as well as in several other States more of the population had both parents of foreign birth than both parents of native birth In Mass the excess is 86,672

HOW TO GET PLENTY OF FRESH EGGS —In a long communication to the Germantown Telegraph, upon the subject of poultry, Mr E Dwight of Hudson, Mich, considers, the question "How to get plenty of good flavored fresh eggs with little trouble?" and thinks if there is any secret in it, he has discovered it, and makes the same public for the benefit of all interested He says

"Once, thirty years ago, I was troubled just as my neighbor now is. I fed my hens plenty of corn and got but few eggs I reasoned up on the matter, and happened to think that the constituent parts of milk and the white of eggs were much alike. Now, it has long been known to milkmen that wheat middlings and bran are about the best of any feed to make a cow give milk; why not then the best to make the hens lay eggs? I tried it, and since then have had no trouble. My mode of preparing the feed is to mix about five parts of bran with one of middlings In the morning I wet up with water about four quarts of the mixture in a large tin pan, taking pains to have rather dry, though all damp. This I set in a warm, sunny spot, south of their shed and they walk up, take a few dips, don't seem to fancy it like corn, and start off on a short hunt for something better, but always come round in a short time for a few more dips from the dish of bran. There is little time during the whole day but what one or more are standing by the pan, and likewise helping themselves

I am careful to mix for them just as much as they will consume during the day at night, just before they repair to the roost I usually throw them about a pint of shelled corn, well scattered so that each one can get a few kernels If your hens don't incline to eat this feed at first, sprinkle a little Indian meal on top, I would like all who complain of not getting eggs to try my plan and I think they will never be sorry"

MURDER WILL OUT —A skeleton has been found in Unionvale, on the Harlem Railroad, under the site of a house formerly occupied by Ephraim Jones, shoemaker, one of whose apprentices, named Brown, mysteriously disappeared about 20 years ago. The remains are supposed to be those of Brown A coroner's inquest has been held and Jones examined Several admissions made by him are regarded as strongly confirmatory of the suspicions entertained against him. When the skeleton was disinterred Jones was asked to look at it, but no persuasion could induce him to do so. Jones is now upwards of 70 years old.

MAINE SPEAKS TO DAY

[illegible] whole country from New Hampshire to the Gulf and from New York to California [illegible] to the verdict from Maine [illegible] In her past [illegible] the people are listening for the emphasis with [illegible] devotion to Republican principles The [illegible] glorious news from the Pacific should remind us of the effect which our election will exert upon the States which follow after and we should feel a just pride and sense [illegible] that will create [illegible] enthusiasm among our friends along the [illegible] in Pennsylvania Ohio and the other sharply contested States The Democracy are putting forth their most desperate exertions to get control of those important States for the Presidential campaign and [illegible] Maine will have a powerful [illegible] for good or evil Our people generally [illegible] fully appreciated the importance [illegible] but they have aroused [illegible] and with vigorous efforts to-day we [illegible] a good report Every [illegible] counts [illegible] to the Republican majority to be announced to morrow [illegible] a blow [illegible] the national campaign of 1872

Upon State issues whether as to principles [illegible] candidates there can be but one choice [illegible] the people of Maine know that Charles P Kimball represents the political faction that [illegible] aid and comfort to the enemies of our country, that he repudiates the guarantees purchased with the blood of our sons and brethren that he is the slave of a party hostile to every principle of equality and human right, that he is pledged to a policy that would rob the public creditors dishonor the national faith and produce financial chaos, that he questions the validity of the Constitution itself and is politically allied with the shameless robbers of the Tammany Ring The people know—for we have told them—that his schemes and plots in dark highways and byways under cover of the night, that he accepts the support of the associated rum sellers of Boston and New York, that he has resorted to the most contemptible political trickery and has hoped for success only through the failure of a full expression of the popular will. They know that he is a man of fair business capacity, but of no [illegible] ability or accomplishment and entirely without experience in dealing with public affairs

On the other hand Sidney Perham represents the patriotic principles of our people, he [illegible] a high progressive policy [illegible] he has been the friend of the [illegible] and the [illegible] the civil government [illegible] honest and efficient [illegible] the national finances [illegible] safeguards against usurpation [illegible] all our public [illegible] He has [illegible] the people of Maine by his faithful and efficient performance of the duties of [illegible] and his opponents [illegible] secret [illegible] he has been [illegible] to the [illegible] the [illegible] Governor [illegible] the people [illegible] State's want, [illegible] history [illegible] worth [illegible] in which [illegible] Maine's [illegible] the nation that [illegible] the law

We hope [illegible] next issue to declare such [illegible] as may be proudly remembered and [illegible] up to the contest to-day we will [illegible] from the [illegible] with [illegible] from the East.

Discouraged!

The experience [illegible] secret [illegible] their [illegible] and they [illegible] Saturday night with [illegible] a fair show by re-opening [illegible] the polls [illegible] and then allowing ballots to be cast [illegible] counting of the votes, they [illegible] from the scanty array [illegible]

[illegible] young Democracy and the liberal wing [illegible] at the [illegible] purpose to give [illegible] and Ross [illegible] Dr [illegible] Central street [illegible] that [illegible] should be represented by Gorham [illegible]

[illegible] square fight there between the liberal sentiment of our people and the [illegible] nothing [illegible] radical type of [illegible] Democracy of which [illegible] conspicuous [illegible]

They have no hope of electing such a ticket [illegible] Bangor if the people go to the polls and the names they have put forward show that they regard it as a forlorn hope

Let every man who regards the honor and welfare of our city give an earnest support to the acceptable nominees of the Republican party S F HUMPHREY C P BROWN and JOAB W PALMER who will represent the loyal principles of this community and sustain the patriotic record of Bangor

We need a delegation in the Legislature which will be influential in caring for our interests, and that influence must be derived from the support of the Republican voters of the city No Democrat can properly represent Bangor and were it possible we should not choose from among those who were in sympathy with the cause of treason No general amnesty has yet been declared and rebel sympathizers must still take back seats

Go to the polls early see that your friends are there give this day to your City State and country and wipe off the blot on last year's record by giving your Representatives an old fashioned rousing majority.

LET IT BE REMEMBERED THAT EVERY TIME THE REPUBLICANS PROPOSED TO REDUCE THESE INTERNAL TAXES, THE DEMOCRATS IN CONGRESS VOTED "NO" THEY WANTED TO KEEP THEM AS HIGH AS POSSIBLE, SO AS TO HAVE SOME PARTY CAPITAL—Senator Morrill at Lewiston.

Examine your Ticket!

Our opponents will resort to all the usual tricks with split and garbled tickets, and each voter should carefully examine his ballot to see that it contains only the names of Republican candidates and that each name is properly spelled. The Republican ticket is as follows

For Governor,

SIDNEY PERHAM.

For Senators.
JOSEPH L SMITH,
JOHN B FOSTER
JOHN B NICKELS,
JOHN KIMBALL

For County Commissioner
SIMON G JERRARD.

For County Treasurer
HORACE J NICKERSON.

For Representatives to the Legislature
SAMUEL F HUMPHREY,
CHARLES P BROWN,
JOAB W PALMER.

Democratic Economy!

Tammany's own figures show that *$850,000* have been paid out nominally for stationery for County officers, aside from the city accounts, which are still suppressed During the same period the cost for stationery for the U S Treasury Department employing 2 200 persons, nearly all of whom make constant use of the various articles of stationery, was about $112,000 or about *one seventh* the expenditure for New York County

The U S Treasury building is the largest and most costly structure in this country excepting the Capitol, it is completed with the exception of an alteration in the finish of one of the facades and its total cost is about $6,000,000 against $12 000,000 already expended on the unfinished Court House in New York city, a building about one sixth as large as the Treasury

At the rate of expenditure by Tammany, the Treasury building would have cost the country something like

$72,000,000.

If the Democrats should obtain power how long would it take Tweed, Sweeney & Co, to bankrupt the nation? Answer by your ballots to day!

Demoralized!

If a red hot shell had dropped into the camp of the rebel Democracy in 1863, it would not have created a greater panic than the appearance of Mr Kimball's secret circular in all the Republican journals Mr Kimball may congratulate himself that it will do more towards bringing out the Republican vote than all other agencies —[Portland Press

Massachusetts Appeals to Maine

Republicans of Maine! you see the cunning trap laid for you at the polls! Your "apathy" is relied upon to secure your defeat, in order to pave the way, as Mr Kimball has said, for a "glorious national victory in 1872" for the Ku Klux Democracy You see the desperate artfulness with which the scheme has been contrived. But it is all out now, and, happily, *in season*, if you retain your old spirit and vigor Make the utmost of the few days remaining Get out, as you can, a full vote Triumph, as of yore and never let your foes count upon Republican "apathy" again!—[Boston Journal

BANGOR CAN CHANGE LAST YEAR'S STATE MAJORITY BY OVER ONE THOUSAND VOTES, IF EVERY REPUBLICAN DOES HIS DUTY!

HAVE WATCHFUL AND EFFICIENT MEN AT EVERY POLLING PLACE TO LOOK OUT FOR REPEATERS AND DEAD MEN'S PROXIES

We fully appreciate the compliment implied in the reproduction of our matter in the columns of other papers, and the Kennebec Journal and Bath Times have displayed unusual courtesy, or enterprise, in appropriating without the customary reference, not only the full text of the Democratic secret circulars, first given to the public in THE WHIG AND COURIER, but also our head lines verbatim, and the entire double leaded editorial announcement of the exposure

We also notice that the correspondents of the Boston Advertiser and Journal, while announcing that the discovery had "created a great deal of excitement through the State," singularly omitted to mention the source of their information, and the former paper which is usually nice upon such points, put the circulars in type directly from our issue which reached it Thursday evening, without intimating its indebtedness

CALIFORNIA IN LINE "WITH ALL SAILS SET"—A Washington despatch concerning the California elections states there is hope that Houghton has been elected to Congress in the First District, now represented by Axtell (Democrat) Senator Cole to-day telegraphed to the President "California is fully righted up and in line for next year with all sails set" William Gouverneur Morris, U S Marshal, also telegraphed "We have elected our Governor and the whole State ticket two Congressmen sure and probably the third Present advices also indicate that we shall have the Legislature by a decided majority"

A Portland despatch says "The Democracy are chagrined at the exposure of the Kimball-Butler correspondence But few names have been added to the check list, showing, after all, considerable brag by the Democracy—Within the past few days the Republicans have roused up and the indications are that the result will be highly satisfactory on Monday

A Strong Ticket.

At a very full and harmonious Caucus the Republicans of Bangor have nominated to represent our city in the next Legislature a strong and efficient delegation

S F HUMPHREY, C P BROWN and J W PALMER are all well known to our citizens as men who will faithfully and ably look after the interests of Bangor and the welfare of the Republican party

We have the warning of last year's mistakes before us, and now is the time to retrieve the error If our friends will work vigorously to bring out every Republican vote we can elect our ticket by a majority that will wipe out the future aspirations of the enemy Bangor is a thoroughly Republican city we have a good and strong ticket in the field, and we must elect our candidates by a vote worthy of them and the party

Go to work at once in every Ward, and bring out every Republican vote

SOUTHERN JOURNALISTS INTERVIEW THE PRESIDENT —The delegation from the Southern Press Association, which has been in session at Washington last week, visited the President at Long Branch Friday, and called his attention to the partial manner in which the federal office-holders distributed their patronage, in many cases preferring notoriously rebel journals for advertising mediums—Other abuses of interest to Republicans were also discussed and the President promised to give them careful investigation

THE ROGERS'S EMBEZZLEMENT. A correspondent of the Boston Journal says

A gentleman informs us, who has conversed with Rogers, the Brunswick bank defaulter, that he acknowledges that his peculations up to his arrest had been going on for thirty years, or from the time he first entered upon his duties as Cashier Up to the time of his bank going into the national system his embezzlements amounted to some $16,000, and Rogers declared that if at any time there had been a careful examination of his books his knavery would have been discovered. His embezzlements will absorb nearly the entire capital of the bank, which is $50,000.

Good for Bath!

The Bath Times says "A friend writes to us that he hears bad accounts from Bath, and wants to know how it is We can tell him that if the rest of the State does as well as Bath, Perham's majority will be at least twenty thousand"

Let them hear from Bangor!

Democratic Decency.

Eben F Pillsbury has been repeatedly supported by the Democrats as their candidate for Governor of Maine He boasts that Charles P Kimball has sustained him with influence and money and he now stands sponsor for Kimball's nomination

Here is a specimen of the refined eloquence of this representative Democrat, this would be Governor, in speaking of that great and good man Abraham Lincoln, who fell beneath the hand of a Democratic assassin —

"He *shines* and STINKS and STINKS and *shines*, like a ROTTEN mackerel by moonlight"

And such men dare to ask the votes of the loyal and intelligent people of Maine Answer them at the polls to-day!

Hiding the Tammany Plunder.

The New York Sun, which the Democrats quote as good authority, says in its issue of Saturday "On Wednesday last Mrs Richard B Connolly (wife of the Controller, "Slippery Dick") made a formal transfer of half a million of dollars in registered United States bonds to her son in law, Joel Fithian The transfer was immediately telegraphed to Washington and entered on the books of the Treasury Department. Mrs Connolly still possesses THREE AND A HALF MILLION DOLLARS OF UNREGISTERED BONDS"

Who Killed the Shipping Relief Bill?

Remember that when the Republican delegation of Maine were laboring to obtain relief for our shipping interests, it was Mr Houghton, a Maine Democrat who said to Congress

"I am one of those who are opposed to the withdrawal of duties"

"Much complaint has been made of the decrease of American commerce without cause"

"It would be unjust to those who have invested their money in ships, and the reduction of duties entirely would lessen the value of their property just so much as the draw-back would amount to"

"Ways that are Dark."

The Boston Post blandly remarks of C P. Kimball —"Popular with the masses, he spurns all *the insincere* arts of the practised demagogue."

This childlike politician avoids the light of day and sends his secret bulletins through the dark alleys and to back doorways under the injunction to open the package only "ON THURSDAY NIGHT"—"take each letter to the party to whom it is addressed IN THE EVENING"—USE GREAT CAUTION THAT YOUR MOVEMENTS MAY NOT BE KNOWN TO THE ENEMY"

For ways that are dark
And tricks that are vain
C P K is peculiar.

Massachusetts is looking to Maine for an example that will strengthen the Republicans of the Bay State and of the Union. The Boston Journal says —

"We can assure the Republicans of Maine that their effort could never be better bestowed than at the present time. The enemy they have to encounter is the same old foe of anti-draft and repudiation days They fought every Republican measure for the salvation and regeneracy of the country, and now they only make the partial recantation of their "new departure" when they hope to steal something from the popularity of their opponents At the same time they keep up their affiliation with men who denounce the last constitutional amendments as the very consummation of fraud Just now they are trying to make capital by pretending an extraordinary interest in the business welfare of Maine They are great talkers about their regard for the people in this respect; so are their party brethern in New York, who have full chance to show just how much their professions are worth! Imagine the Democratic leaders of Maine, like Virgil D Parris Bion Bradbury, Marcellus Emery & Co, endowed with power to control the material interests of the State! Would they do any better than they have done in fighting every step the National Government has taken to disarm treason and restore the prosperity of the country? They enjoy of course, the new pretence set up in behalf of the Democratic candidate for Governor, and would be excessively amused to learn that any vote had really been gained on the strength of it, but their hearts are in the hope of being able to give some co-operation to the Democracy of Tweed, of Pendleton, and of Toombs"

BUTLER'S STUMPING TOUR—Gen Butler spoke Friday evening in the Town Hall, Milford, Mass, to about 1600 people After defending his own personal record, he took up the newspapers and added the Boston Transcript and the New York Tribune to his "index expurgatorius," then discussing the State expenses, the railroad system and the prohibitory law, he concluded with his views on woman suffrage There was nothing of an unusual character in the speech itself, but various parties in the hall caused immense disturbance several times by interjecting queries to the orator which he as promptly answered, amid tremendous cheers, hisses, yells, cat-calls and uproarious laughter Some of these interruptions and queries were utterly extraneous and senseless, and must have been prompted by intoxication, but the two following were pertinent to the speech, and the answers properly form part of it.—

"Are you in favor of the prohibitory law?" asked a man rising up in the meeting

"Suppose I am," retorted the General, "and don't enforce it, should I make a good Governor?" [Cries of 'no, no,' and applause, while the questioner yelled out, "Oh, I know your game—dodging the question!"] "Suppose," continued the General "that I was not in favor of it, and did enforce it as well as it could be enforced, should not I make a good Governor so far as that is concerned?"

"Why don't you answer the question?" pursued the questioner

"The executive officer ought to have no opinion as to the law," responded the General "When the law is off of the statute book I shall be ready to give my opinion as to the kind of law to insure temperance, sobriety and fair play in the Commonwealth."

Soon after, another man inquired "What was the pay of a member of Congress in 1860?" The General—"Three thousand dollars"—"What was the pay in 1870?" "Five thousand dollars, sir" "And you take the difference, and yet blame 'Warrington' for taking what he has?" [Tremendous cheering]—Well," said the General, "I haven't taken the difference; I have taken the salary established by law when I came into office I have never tried to increase it nor asked the Legislature, year by year, for a hundred dollars or so more. Then let me tell you another thing, my friends In Congress, any man that does his duty earns quite $5,000—I don't know but that 'Warrington' earns his Any other man got a question?" [Cheers and cat-calls.]

HURRICANE IN THE SANDWICH ISLANDS A terrific hurricane passed over the Sandwich Islands, August 9th. The valley of Waipo was cleared of trees and shrubs and twenty houses were blown down Dr Wright's sugar plantation in the district of Kohala was badly damaged. The sugar mill and over one hundred other buildings were blown down. Whole groves of trees were swept away Crossing the channel, the wind struck the plantations at Kana, and the adjacent sea coasts. The Boys' Seminary at Makawao was moved off its foundations. The hurricane came in the day time, or great loss of life would have occurred.

Send in the Returns.

Our friends in the various towns will confer a favor upon us and oblige the public by promptly sending in the returns of their votes, to enable us to give a full report of the election Will the town committees please forward the figures and names of candidates elected, as soon as possible after the closing of the polls?

Theodore Tilton does not like Mr Blaine's "bad example of denying false reports."—"We like," says the Golden Age, "to see in a politician such a nerve, a courage, that he could be charged with committing the Nathan murder, and make no reply" Boss Tweed and Slippery Dick Connolly, it appears, are the kind of men Mr Tilton admires.—[Portland Advertiser

A Washington correspondent relates the particulars of a recent discovery that relieves Vermont of the odium of having been a slave-holding Commonwealth. In the original census returns of 1790, sixteen colored persons were mentioned as "free blacks," but the clerk in transcribing the census for the printer, put them under the head of slaves, and this error has been repeated in all the following histories.

Still Onward and Upward.
The extraordinary increase that has taken place in the sale of Hostetter's Stomach Bitters during the past year, is another proof that an intelligent people, although they may try all things, hold fast only to that which is good. No amount of puffery can lift inferior articles to the position of standard specifics To use the words of Tom Paine, they may go up like a rocket but are sure to come down ignominiously like its extinguished stick Hundreds of such nostrums have gone up and come down since the introduction of Hostetter's Stomach Bitters, nearly the fifth of a century ago Yet it still remains the supreme tonic of the age It has not, and never has had a rival in efficacy or popularity, and now stands at the head of all proprietary remedies manufactured on this side of the Atlantic. In every civilized community on this continent, or in South America, it is the accepted remedy for dyspepsia, bilious complaints, constipation, general debility, nervous weakness and many other unpleasant or dangerous maladies A medicine so widely extended is of course pirated and imitated by dealers without conscience or integrity.
Therefore, let every man and woman who designs to purchase the genuine Hostetter's Stomach Bitters, see to it that they have what they pay for, and not the results of an infamous imposture Look carefully at label stamp and name blown in the glass, and do not forget that the *true bitters* is sold in bottles only.

The Revere Disaster.

VERDICT OF THE CORONER'S INQUEST

BOSTON, Sept. 10

The Coroner's Jury, after being in session until two o clock this morning, agreed upon a verdict, which was transmitted to Coroner Forsayth and approved by him about four o clock this afternoon The following is the

VERDICT

That the persons then and there lying dead came to their deaths through a collision of trains on the Eastern Railroad, at about twenty minutes past eight o clock on the evening of the twenty sixth day of August, near the railroad depot in Revere

Now the Jurors further find that the direct cause of the collision was the negligence of John S Nowland, conductor of the Beverly train upon which said persons were thus killed and Ashbel S Brown, engineer of the colliding Pullman train. The former failed to notify the latter, by signal or otherwise, that his the said Nowland's, train had been delayed on the road, after starting about twenty minutes (late?), and the said Nowland would have known had he consulted his watch, that the Pullman train was overdue by its regular running time, (when) the said Nowland reached Revere The engineer of the Pullman train had an unobstructed view, of at least half a mile, of the Beverly train as it stood at the depot at Revere, directly before the collision, and could and should have seen the tail lights of said train in season to avoid the collision

The Jury further find that Samuel O Lunt, depot master at Boston, was remiss in duty in not correctly transmitting the order of the Superintendent to the engineer of the Pullman train to look out for trains ahead, thus depriving the engineer of information that might have enabled him to avoid the Beverly train

The more remote cause, but not less certain of the disaster was the delay in the time of starting the Beverly train from the depot in Boston, said delay being occasioned by gross inadequacy of rolling stock necessary for the safe and timely transit of passengers on said road

The Jury further find that frequent delays in the time of starting, occasioned by extra or excursion trains, have delayed the running of regular trains, thus adding to the perils of railroad travel

The necessity of telegraphic communication with other trains on the road, the need of important appliances for the safety of trains the risk from fire attending the use of explosive burning fluids, the want of a siding at the Saugus Branch and the entire insufficiency of accomodations, have failed to receive that consideration their importance demanded, we therefore find that the President and Directors of the Eastern Railroad Corporation are, to a great extent, responsible for the loss of life aforesaid

"DEXTER" AND "GOLDSMITH MAID." Bonner's Ledger says of the Maid's recent performance.

Some of the daily papers have reported that Goldsmith's Maid has trotted a mile in 2 17 Everybody knows that she never saw the day she could do that without running; but even had she done it, it would leave her behind Dexter, for he trotted in the presence of 10,000 people in 2:16, although beaten in that race by a running horse which made 2:15, and therefore got the record."

A SCAMP. We are informed that as three gentlemen were walking away from the steamboat wharf after the prayer meeting Sunday afternoon, they narrowly escaped being hit by several stale eggs thrown at them, which smashed on the boards beside them On looking around they discovered one of the employes on the City of Richmond in the act of throwing another but not caring to be struck, they hastily left the vicinity. If Capt. Dennison discovers the perpetrator we would not give much for his future earnings on that steamer.

DEMOCRATIC CAUCUS

The Democratic caucus at City Hall Saturday evening was called to order by Levi Murch, Chairman of the City Committee, on whose motion Gen. C. W. Roberts was chosen Chairman and Geo. Fred. Howard and M. J. Desmond, Secretaries.

On motion, a committee of seven, consisting of one member from each Ward, was appointed to receive, sort and count ballots, and it was voted to proceed to ballot for three candidates for Representatives upon one ballot. The polls having been declared closed and this action doubted, they were kept open fifteen minutes longer and it was then voted that any person who had not voted should be allowed to do so while the ballots were being counted. The result of the ballot was announced as follows:

Whole number of ballots,	162
Necessary to a choice,	82

The various candidates received the following votes

Wm T. Pearson,	1?2
F M Laughton,	?2
Hugh Ross,	?2
Amos M Roberts,	1?3
Gorham L Boynton,	124
Scattering,	1

Pearson, Roberts and Boynton were therefore declared the nominees of the caucus.

The Chairman accepted the nominations for Messrs Roberts and Pearson, both of whom were absent from the caucus and Gorham L Boynton addressed the assembly, accepting for himself, expressing a conviction that the Democratic candidates would be elected to the Legislature, but adding that if they were not, they could stand it better than the State or country With this consolatory benediction from the venerable Sachem the proceedings closed and the caucus adjourned

For the Whig and Courier.

THE LATE LAWSON WOODBURY.

The late Lawson Woodbury whose death has caused such a universal feeling of regret, was born in Charlton, Mass, Dec. 6th, 1805 His father Aaron Woodbury, soon after the birth of their son, moved to Bangor and settled on the hill near where the Western Depot now stands. At the age of about two years little Lawson had the misfortune to lose his mother. He was immediately taken in charge by Mrs. Abigail Plummer, wife of the late Andrew Plummer They soon after moved to Eddington where their young charge was reared amid the many privations and hardships incumbent upon a new country and limited means. His privileges for schooling were small, but being possessed of a studious mind and perseverance, after having availed himself of what schools his town could afford, he attended a few terms at Hampden Academy, thereby attaining a very good English education. He soon became an efficient school teacher, at which business he spent several winters. He then acted as a clerk in a store for a while and at the decease of the late ... was mainly instrumental in ... a final and satisfactory settlement ... went into trade for a few years at Eddington Bend, but soon relinquished that and came back upon the old farm where he was raised to care for those who had cared for him in his childhood. Mrs Plummer, his foster mother, is still living at the advanced age of over ninety years and he has ever cared for her as a good and dutiful son would for an own mother, and has still left provision for her support. He has filled nearly every office of trust and responsibility in his town, and has twice been elected to represent his class in the State Legislature In all of these trusts he has ever acted in true fidelity as a good and faithful citizen, thereby gaining the esteem of the community

Mr Woodbury had known affliction, having been twice married and called upon to follow both estimable companions to their last resting place, the last a little more than a year before his own death Two daughters by his first marriage have also passed away, the last one, (wife of Leon R. Comins,) only a few months since, leaving but one granddaughter four years old of his own family or descendants living The following words found written upon a card in his pocket, are all that has been found as yet to cast any light upon the mystery of his death: "I have lived nearly 66 years, my family all gone, have seen enough of life, have nothing to live for and am anxious to go and be at rest, and in a fit of mental depression I leave all here below."

RAILROAD MEETING IN CASTINE.

To the Editor of the Whig and Courier.

The citizens of Castine assembled at their Town Hall Thursday, Sept. 7th, to consider the question of granting aid to the projected railroad from Calais westward, and to choose delegates to attend the Convention to be held at Ellsworth on the 14th inst. Col. C W Tilden was called to the chair and J W. Dresser chosen Secretary Enthusiastic addresses were made by prominent citizens of Castine, evincing great unanimity, and making it certain that Castine will tax her resources to the utmost in the action of the Convention should make it for her interest to do so. It was voted unanimously, that it is the sense of this meeting that this town can be relied upon for the sum of $250,000 if Castine should be selected as the eastern terminus of the road.

Voted; To send delegates to the Convention as follows: A. E. Ives, C. J. Abbott, W. H. Witherlee, G. F. Tilden, J. W Dresser, C. W. Tilden, F A. Hooke, S. F. Noyes, Thos S Fuller, W. H. Sargent A. F. Adams, S P. Hatch, S. W. Webster, E. F. Davies, G. H. Emerson, S. K. Whiting and J. B Woods.

Voted, That the proceedings of this meeting be published in the Portland, Bangor and Ellsworth papers.

J. W. DRESSER, Secretary.

BANGOR PRODUCE MARKET.

SATURDAY, Sept. 9th, 1871.

The following report is obtained by particular observation on the market, and the quotations are the prices paid for produce from the country teams this day, or about the average for the week past:

HAY—Loose hay comes in quite plenty and we should quote it as selling a little dull at from $24 to $28, and some loads of the very best quality at $30 per ton.

STRAW—New loose straw is now being brought to market and sells at from $10 to $12 per ton.

OATS—New oats come in quite plenty and sell at from 50 to 55 cents per bushel.

BEANS—A few lots of new yellow eyes have been on the market this week and sold at about $3.00 per bushel. Extra hand-picked pea beans are scarce and would sell at from $3.25 to $3 50 per bushel.

BUTTER—The quantity of western solid or packed butter coming into our market seems to regulate the price of home produce, and we should quote good lump at from 30 to 32 cents per pound, but a right nice article of lump butter is scarce and would bear a quotation a trifle higher.

EGGS have sold during the week at about 18 cents, but to day small fresh lots sold quick at 19 cents per dozen.

POTATOES are coming in only in small lots and the prices paid for them during the week have been from about 45 to 50 cents per bushel.

APPLES are quite plenty and cooking fruit sells at from 50 cents to $1 00 per bushel; the best varieties selling at from $1 25 to $1 50 per bushel.

BERRIES—Blueberries are still on the market and sell from the wagons at $3 00 per bushel. Blackberries are plenty and sell at from 8 to 10 cents per pound, and in small boxes from 10 to 12 cents per quart

CHICKENS are worth from 16 to 18 and 20 cents per pound.

ROUND HOGS are dull at from 6¾ to 7 cents per pound

WOOL, &c. The best washed wool is worth from 58 to 60 cents per pound, and lambs' pelts sell at from $1.00 to $1 25 each. Veal skins are worth 20 cents per pound, and hides sell at 7 cents per pound.

A YOUNG "JACK SHEPPARD." Wm. Carroll and John Harrington, the two Boston boys who tried to throw the Erie express train off the track last month, attempted Wednesday to break jail at Milford, Penn — They were unsuccessful and the Sheriff shackled them together and chained them to the floor On Friday morning the jailor entered their cell and found Carroll gone and the shackles of Harrington nearly filed off — The latter said his companion had taken the damper of the stove in the cell and with its rough edge and powdered brick dust succeeded, after working steadily until 3 A. M, in cutting the iron that bound him. He then began to free Harrington but found he could not accomplish that task before morning and was urged by the latter to make his own escape He crawled through the opening they had made in the window Wednesday, and has not since been heard of. He is only 14 years old.

The Cause and Cure of Consumption.

The primary cause of Consumption is derangement of the digestive organs This derangement produces deficient nutrition and assimilation By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body Persons with digestion thus impaired having the slightest predisposition to pulmonary disease or if they take cold will be very liable to have Consumption of the Lungs in some of its forms and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation ...

... make good healthy living blood After ... Schenck's Pulmonic Syrup The Pulmonic Syrup nourishes the system purifies the blood and is readily absorbed into the circulation and thence distributed to the diseased lungs There it ripens all morbid matters whether in the form of abscesses or tubercles, and then assists Nature to expel all the diseased matter in the form of free expectoration when once it ripens It is then by the great healing and purifying properties of Schenck's Pulmonic Syrup that all ulcers and cavities are healed ...

The ... thing to be done in curing Consumption is to get up a good appetite and a good digestion so that the body will grow in flesh and get strong. If a person has diseased lungs a cavity or abscess there the cavity cannot heal the matter cannot ripen, so long as the system is below par What is necessary to cure is a new order of things, a good appetite, a good nutrition the body to grow in flesh and get fat then Nature is helped the cavities will heal the matter will ripen and be thrown off in large quantities and the person regain health and strength This is the true and only plan to cure Consumption, and if a person is very bad if the lungs are not entirely destroyed or even if one lung is entirely gone if there is enough vitality left in the other to heal up there is hope

I have seen many persons cured with only one sound lung live and enjoy life to a good old age This is what Schenck's medicines will do to cure Consumption They will clean out the stomach sweeten and strengthen it get up a good digestion and give nature the assistance she needs to clear the system of all the disease that is in the lungs whatever the form may be

It is important that while using Schenck's medicines care should be exercised not to take cold keep in doors in cool and damp weather, avoid night air and take out door exercise only in a genial and warm sunshine

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold while using my medicines I do so for a special reason A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured and it is precisely the same in regard to consumption So long as the lungs are not perfectly healed just so long is there imminent danger of a full return of the disease Hence it is that I so strenuously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant Confirmed consumptives lungs are a mass of sores which the least change of atmosphere will inflame The grand secret of my success with my medicines consists in my ability to subdue inflammation instead of provoking it as many of the faculty do An inflamed lung cannot with safety to the patient be exposed to the biting blasts of winter or the chilling winds of spring or autumn It should be carefully shielded from all irritating influences The utmost caution should be observed in this particular as without it a cure under almost any circumstances is an impossibility

The person should be kept on a wholesome and nutritious diet and all the medicines continued until the body has restored to it the natural quantity of flesh and strength

I was myself cured by this treatment of the worst kind of Consumption and have lived to get fat and hearty these many years with one lung mostly gone I have cured thousands since and very many have been cured by this treatment whom I have never seen

About the first of October I expect to take possession of my new building at the north east corner of Sixth and Arch streets, where I shall be pleased to give advice to all who may require it

Full directions accompany all my remedies so that a person in any part of the world can be readily cured by a strict observance of the same

BONDS

OF THE

EUROPEAN AND NORTH AMERICAN RAILWAY CO.

THE E & N. A RAILWAY is completed from Bangor Maine to St John, New Brunswick, a distance of 202 miles,—with the exception of 58 miles between Winn, Me, and the boundary line of the State at Vanceboro' On this portion the track is now being laid both from Winn *eastward* and from Vanceboro' *westward* and the work will be completed and trains running from Bangor to St John in September next.

This road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES (New Brunswick and Nova Scotia) The population of the maritime Provinces is about ONE MILLION, and all the land travel freight, mails &c between them and the United States, will pass over this Trunk line which is WITHOUT COMPETITION Although not yet completed the business of the road is already far greater than its most sanguine friends predicted, and is continually increasing

The net earnings from Local Business alone, on the 56 miles completed in Maine already exceed the interest on two and one quarter millions of dollars and will be largely increased after Sept next by the business to and from the Provinces

To complete this road, and to equip it as fully as its present large business and the immediate increase consequent upon its completion, require—the Company has issued its Bonds to the amount of Two Millions of Dollars secured by a

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN TO VANCEBORO' (besides a *Second* Mortgage on the entire road and equipments from Bangor to Winn 56 miles This portion cost some $2,300 000, and the only lien thereon is a mortgage to the city of Bangor for $1 000 000)—and in addition thereto, by a FIRST AND ONLY MORTGAGE on

800,000 Acres of Land!

Said lands being the same granted by the State of Maine to aid the construction of this road They are situated along the Penobscot and St John rivers and are heavily timbered and valuable. Large tracts, especially in the fertile Aroostook Valley (the finest agricultural district in the State) are valuable for farming lands as well as for their timber This immense grant of land equals about

14,000 Acres to each Mile

of Railroad with which they are mortgaged They cover 1 50 square miles (nearly as large as the State of Rhode Island) which is 1886 square miles and are of great value

Thus, besides the mortgage of the Railway, its equipments &c which alone is ample security for the Bonds there are timber and farm lands to the amount of

400 ACRES TO EACH BOND

also pledged to ensure the payment thereof

The Bonds are for $1000 each due March 1 1889 and interest at

Six Per Cent, Per Annum,

PRINCIPAL AND INTEREST PAYABLE IN

GOLD.COIN,

Free from U. S. Taxation.

Coupons payable March 1 and September 1 in New York Bonds registered if desired Coupons paid payable (£6 each) in London England if preferred

SINKING FUND—All proceeds of sales of land as well as of timber and other products therefrom are, by the Trustees, to be invested in these Bonds if they can be bought at par or less otherwise in United States State or Municipal Securities And on July 1, 1879 and annually thereafter until these Bonds become due or are all paid the E & N A Railway Co is bound to pay to the Trustees a sum of money equal to one per cent of the amount of Bonds outstanding Such amounts and all interest received on securities belonging to the SINKING FUND are to be invested as above stated and these accumulations are solely for the purpose of additionally providing for the redemption of the Bonds The Sinking Fund constitutes a third element of security and strength, and adds to the safety of these Bonds.

The Trustees are Hon HANNIBAL HAMLIN of Bangor, Me., and J. EDGAR THOMSON Esq of Philadelphia Pa

The Trustees are authorized to receive the Bonds at Par and Accrued Interest in payment for any of the lands at their appraised value.

These very desirable securities for sale at

90 AND ACCRUED INTEREST IN CURRENCY

U S Bonds and all marketable securities received at highest market price in exchange for these Bonds, and can be sent by Express and these returned by Express, free of expense to the purchaser

A Safe & Profitable INVESTMENT.

First Mortgage Bonds,

To a limited amount, upon a railroad which is well located for business and which has been already largely constructed with the funds of its Stockholders, cannot be otherwise than safe. This security is increased if the Constructing Company is composed of men of a character and of ample means for successfully carrying through any work that they undertake

THE

NEW OLEANS MOBILE & TEXAS

RAILROAD COMPANY

Offer for sale a bond which combines these advantages to an unusual degree The route lies between Mobile Alabama and Houston, Texas—passing through New Orleans, the New York of the South Of the whole line of 475 miles, about two thirds are already built, and the Stockholders have expended nearly TEN MILLION DOLLARS in the work The bonds now offered are secured by a mortgage upon all that part of the line west of New Orleans which has an enormous traffic assured to it from the start, this being the only rail connection by which the cotton corn cattle and other products of Texas can reach New Orleans

So important is this road considered to Louisiana that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of second mortgage bonds, and by subscriptions to the stock of the Company, amounting in all to over eight millions dollars

The First Mortgage

Eight Per cent Bonds

Now offered, are limited in amount to $12,500 per mile, and are for $1,000 or £200 each, interest payable January and July at the rate of 8 per cent Currency or 7 per cent Gold at the option of the holder Bonds registered if desired

Among the leading Stockholders of the Company are Hon E D Morgan, Ex Governor and Ex U S Senator Hon John A. Griswold, Ex Lieutenant Governor, Troy, N Y, Hon Oakes Ames, M C, Massachusetts, Messrs Morton Bliss & Co L Von Hoffman & Co, J & W Seligman & Co, Harrison Durkee, and others of New York, Benjamin E Bates, President Bank of Commerce, Franklin Havens, President Merchants' Bank Boston, and others also well known

The above statement of facts proves the SAFETY of these Bonds. Their PROFIT is equally manifest upon examination They are sold for the present at 90 and accrued interest from July 1st At this price they afford a certain income for forty-five years, of nearly nine per cent upon their cost One thousand dollars invested in these eight per cent bonds will give the purchaser *more than seventy-seven per cent* greater annual interest than the same amount invested in the new Government five Per Cents while holders of Government Sixes will find a decided profit in selling them at present high prices and reinvesting in the New Orleans Mobile and Texas Bonds

Subscriptions will be received in Bangor by

P. M. BLAKE, Banker,

and in Bucksport by

At Bucksport National Bank
